

The image features two glowing, cylindrical flameless candles in the foreground, one taller than the other. They emit a warm, orange-yellow light. The background is a dark, textured wall, possibly stone or brick, with a small potted plant visible in the upper right. The overall mood is serene and calming.

# flameless candles for your spa

reuse | recharge | breathe easy

Everyone loves candlelight. Now you can love it without the risk, mess, or cost.

Our Flameless Candles can be used in places and in ways that real candles cannot. Be creative, and enjoy candlelight without restrictions.

Above are just a few ways that some of our satisfied clients are using our products.

# why flameless candles?

**Safe** Relax in a healthy and worry-free environment.

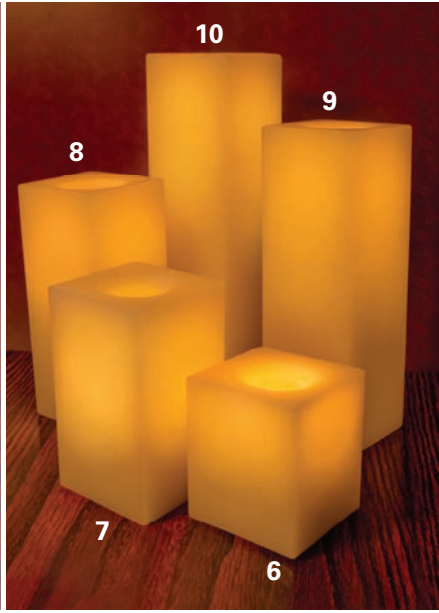

**Realistic** Patented design and warm flicker effect.

**Economical** Save thousands of dollars annually.

**Green** Reuse every day without creating waste or smoke.

Individual run times based on specific battery type for each candle. Pillar candles work with both standard alkaline and rechargeable batteries.

# rechargeable candles

Rechargeable Candles will provide the most economical and convenient candlelight solution for spas that are currently burning candles or fuel every day.

- Recharge** Charge candles in the EasyStack™ Charging Tray for just 3 hours. Up to four trays can stack vertically and share one power outlet. 12 candles per tray.
- Reuse** Candles will flicker for 15 hours on a full charge. Candles are equipped with an on/off button to save battery life when not in use.
- Repeat** Each candle can be charged up to 1,500 times — that's about 5 years of heavy use — without an ongoing operating expense.

# Why Candle Impressions®?

## Expertise You Can Trust

We invented the Flameless Candle. We established the industry, and we continue to be the #1 provider today.

## Longest Run Times

On average, our candles run 400 hours longer than the competition on a single pair of batteries—that's 400 more hours of cost-free candlelight.

## Realistic Patented Design

Real candles have wicks. So do ours. Our patented 'realistic wick' design means that our candles have everything you would expect... except the danger.

## Widest Assortment

With over 500 innovative products, we can uniquely meet even the most discerning décor needs.
